SCOPE OF WORK

Notice is hereby given that the La Plata County (LPC) Board of County Commissioners, through the LPC Procurement Division, is seeking bids from qualified Contractors for the development of a list of On-Call Contractors specializing in various trades. The list of Contractors that enter into On-Call Agreements will be available to County staff to use when in need of assistance on a variety of small projects ranging from $10,000 to $50,000.

Current Agreements for On-Call Trades are slated to expire on December 31, 2026. Contractors who enter into an Agreement as a result of this process will be on the list for 2027 services, with the option for four (4) one-year renewals. All Contractors who wish to have On-Call status should respond to this solicitation in order to be considered On-Call for 2027.

The County anticipates a wide range of services that may be used under these Agreements. Some jobs would be relatively small and entail an hour or two of work. Others might be more detailed or lengthy, such as a small construction project. A list of services the County is seeking is included below. Note: All work locations are within La Plata County.

Individual jobs will be negotiated in advance and authorized by the County via a written work order, prior to the commencement of any work. County staff may request a quote for a particular job, along with information regarding the Contractor's availability. Quotes shall be based on pricing awarded under this solicitation, along with the estimated number of hours for job completion, and materials costs.

If a particular job requires after-hours access to County facilities, the employees assigned to the work will be subject to a background check prior to being allowed on site after hours.

The list of On-Call Contractors that will be established will not obligate the County to rotate or otherwise utilize the services of each company. The County reserves the right to use any company on the On-Call list which it deems to be in its best interest for a particular job. Selection on each project shall be within the sole discretion of the County. Factors that may be considered by the County in choosing a company in any given situation may, but will not necessarily, include the following: quoted price for a specific job; the Contractor's proximity to the facility or project; Contractor responsiveness; Contractor availability; and, quality of service provided.

Contractor responsiveness: It is the expectation of the County that Contractors on the On-Call list will respond to inquiries from County staff within seventy-two (72) business hours (standard business hours of Mon-Fri. 8:00 am to 5:00 pm). This expectation does not obligate an On-Call Contractor to accept the assignment, simply to respond to the inquiry within that time frame. The County reserves the right to contact another On-Call Contractor as needed and to consider a Contractor's responsiveness with regard to future contracts and/or renewals.

Trades/services:
The County is seeking the following trades/services. If there is a specific trade that your company can provide that is unlisted, please include information regarding the service and the associated hourly rates within your response (see Rates Sheet).
