INVITATION TO BID

Landscape Maintenance Services

CONTRACT DETAILS

Project	Trails Park and Recreation District Landscape Maintenance Services
District Primary Address	16799 E Lake Ave, Centennial, CO 80016
Date Issued	Thursday, November 12, 2026
Bid Submission Deadline	Friday, December 4, 2026 at 5:00 PM MST
Contact Information	Sean Bowering, Parks Manager, Trails Park and Recreation District
Email	Sean.Bowering@tprd.org
Telephone	(303) 269-8411

The Trails Park and Recreation District (TPRD) is looking for a qualified, reliable, and experienced landscape maintenance partner to help us keep our parks, trails, and open spaces looking their best for the residents and families we serve. TPRD is a Colorado Title 32 Special District maintaining over 300 acres of parks, trails, and natural areas across a 10.5-square-mile area The contractor we select will play a meaningful role in the day-to-day experience of our community. We value clear communication, quality workmanship, and a contractor who takes pride in the spaces they maintain.

GENERAL INFORMATION

TPRD serves residents in unincorporated Arapahoe County and Eastern Centennial, providing well-maintained parks, trails, open spaces, and recreational amenities across a 10.5-square-mile area. The District manages 20 developed parks, approximately 25 miles of trails, three facilities (Trails Recreation Center, Lookout Park and Pool, and Trails Skate Park), and over 300 acres of natural areas. The District is seeking proposals from qualified landscape maintenance firms to provide comprehensive year-round landscape maintenance services across all District parks, trails, open spaces, and recreational facilities.

The initial contract term will be for one (1) year beginning January 1, 2027. The District may, at its sole discretion, renew the contract for up to three (3) additional one-year terms, subject to annual budget appropriation. Renewal pricing shall be proposed by the bidder at the time of submission and shall include a proposed annual escalation rate for each potential renewal year. The District reserves the right to accept or negotiate renewal pricing prior to exercising any renewal option.

CONTRACT DESCRIPTION

The Trails Park and Recreation District is seeking proposals from qualified landscape maintenance contractors to provide year-round landscape maintenance services at all District parks, trails, open spaces, and recreational facilities. The full list of service locations is attached in Exhibit A.

SCOPE OF WORK

The scope of work includes, but is not limited to, the following service categories. Detailed technical specifications for each category are included as Exhibit B to this RFP. Bidders are expected to review all technical specifications thoroughly prior to submitting a proposal.

1. Turf Care
2. Tree, Shrub, and Bed Care
3. Irrigation Control and Maintenance
4. Native Area Maintenance
5. Miscellaneous Services
6. Snow Removal (Time & Materials — Not Included in Base Bid)
    a. Snow removal services are not included in the base contract price and shall not be bid as part of the base proposal. Snow removal will be authorized by the District on an as-needed basis and billed separately on a time and materials basis. Snow removal services will be triggered when snow accumulation reaches two inches (2") or greater. Bidders shall provide a separate time and materials rate schedule for snow removal services as part of their proposal submission.

BIDDER'S RESPONSIBILITIES

Bidders are responsible for familiarizing themselves with all service locations, maintenance boundaries, site conditions, and technical specifications before submitting a proposal. Submission of a proposal constitutes the bidder's representation that it has sufficiently reviewed the scope and site conditions and that its pricing reflects conditions reasonably apparent from the RFP, maps, and site inspection.

The District will not consider requests for additional compensation arising from conditions that would have been reasonably apparent through review of the solicitation materials or site inspection. Proposers shall also comply with all applicable federal, state, and local laws, ordinances, licensing requirements, and regulations affecting performance of the work.

COMMUNICATION AND REPORTING REQUIREMENTS

The selected contractor shall adhere to the following communication and reporting requirements throughout the contract term:

- **Emergency Response:** The contractor shall acknowledge emergency notifications from the District within one (1) hour and provide an estimated response time. When immediate on-site response is required, the contractor shall mobilize appropriate personnel as promptly as reasonably practicable. Emergencies are conditions that cannot reasonably be postponed and may threaten health, safety, property, or District operations.
- **Routine Communication:** The contractor shall participate in weekly check-ins with the Parks Manager, in person or by telephone, to discuss scheduled maintenance, upcoming work, service concerns, and authorized extra services.
- **Extra Service Documentation:** For authorized extra service work, the contractor shall provide appropriate documentation, including before-and-after photographs when reasonably applicable, upon completion.
- **Issue Reporting:** The contractor shall promptly notify the Parks Manager of vandalism, safety hazards, weather-related damage, irrigation failures, significant landscape issues, or other conditions of concern observed during routine work. Written follow-up, including a repair estimate when requested, shall be provided in a timely manner.
- **Seasonal Planning:** The contractor shall be available to assist the District with seasonal maintenance plans, schedules, budgets, and projections on a schedule established by the District.
- **Special Events**: The contractor shall coordinate with District staff in advance of special events and large sporting events to maintain appropriate service levels at affected locations.

BID SUBMITTAL REQUIREMENTS

All items below are required for a proposal to be considered complete. The District may deem proposals that omit required information non-responsive.

- **Completed Proposal and Pricing:** Base pricing broken down by location and service category; total annual base price; proposed annual escalation rate for each of the three potential renewal years; and proposed service schedule/frequencies by location.
- **Standard Time & Materials Rate Schedule:** Labor rates by crew classification; equipment rates by type; material pricing methodology and proposed material markup; and any mobilization or other recurring charges for extra, emergency, or additional work outside the base contract.
- **Snow Removal Time & Materials Rate Schedule:** Separate snow-removal labor, equipment, de-icing/material, and mobilization rates. Snow pricing shall not be included in the base proposal.
- **Statement of Qualifications:** Company experience, organizational capacity, current workload, key personnel, and ability to adequately staff and perform the District contract. Proposers shall demonstrate at least three (3) years of continuous commercial landscape maintenance operations and experience with public parks, recreation facilities, open spaces, or comparable properties.
- **Key Personnel:** Identify the proposed account manager and key supervisory personnel assigned to the District, with a brief summary of relevant experience.
- **Three Client References:** For each reference provide client/project name; contact name, title, phone, and email; brief scope; approximate contract value; and contract duration. Comparable scale and complexity are preferred.
- **Proposed Subcontractors:** Identify subcontractors proposed for any portion of the work, including pesticide/herbicide application, tree care, irrigation repair, or other specialty services. All subcontractors must hold licenses required for the work performed.
- **Insurance:** The selected contractor shall maintain workers' compensation as required by Colorado law; employer's liability of at least $500,000 per employee/accident and $1,000,000 aggregate; commercial general liability of at least $1,000,000 per occurrence; and automobile liability of at least $1,000,000 combined single limit per accident. TPRD shall be named as an Additional Insured on applicable policies. Certificates shall be provided before work begins.
- **Exceptions and Deviations:** Clearly identify any exception or requested deviation from the RFP, technical specifications, or sample agreement. Requirements for which no exception is identified will be considered accepted by the proposer.

BID SUBMISSION REQUIREMENTS

> Proposals shall be submitted electronically through BidNet as a single PDF document no later than Friday, December 4, 2026 at 5:00 PM MST. Late proposals will not be considered.

All questions regarding this RFP must be submitted in writing through BidNet no later than Monday, November 23, 2026, at 12:00 PM MST. Responses will be issued only through formal written addenda. Oral interpretations or clarifications are not binding.

EVALUATION CRITERIA

TPRD intends to select the responsive and responsible proposer offering the best overall value to the District. The District reserves the right to verify information contained in proposals; contact listed references or other clients regarding past performance; request clarifications; waive minor informalities or irregularities; conduct interviews with one or more shortlisted proposers; negotiate with the highest-ranked proposer; reject any or all proposals; or cancel the solicitation when determined to be in the District's best interest.

AWARD

The District intends to award the contract to the bidder whose responsive proposal represents the best overall value based on the criteria above. No proposal may be withdrawn for sixty (60) days after the proposal deadline.

The selected contractor will be required to execute a final agreement with the District within thirty (30) days after notice of award and provide required insurance certificates and other required documentation before commencement of work. The final agreement will incorporate the requirements of this RFP, applicable Addenda, the selected bidder’s accepted proposal, negotiated terms, and any other provisions mutually agreed upon by the parties.

The District reserves the right to negotiate final contract terms with the selected bidder, provided that such negotiations do not materially alter the scope of services or basis upon which proposals were evaluated. If the District and selected Bidder are unable to reach an acceptable agreement, the District reserves the right to discontinue negotiations and negotiate with another Bidder.

Please note that the Trails Park and Recreation District is a tax-exempt organization. A certificate of exemption is available upon request.

EXHIBIT B – TECHNICAL SPECIFICATIONS

Landscape Maintenance Services

I. GENERAL REQUIREMENTS

A. Scope of Work. The Contractor shall furnish all labor, supervision, tools, equipment, materials included in the base contract, and transportation necessary to perform the landscape maintenance services described in this Exhibit and the RFP. Work shall be performed in a professional manner and shall maintain District properties in a safe, clean, attractive, and serviceable condition throughout the contract term.

B. Definitions. "Contractor" means the firm awarded the landscape maintenance contract. "District" means the Trails Park and Recreation District (TPRD).

C. Insurance. The Contractor shall maintain all insurance required by the RFP and resulting agreement and shall provide certificates of insurance prior to commencement of work. In the event of a conflict, the insurance requirements stated in the RFP or executed agreement shall control.

D. Damage to District Property. The Contractor shall be responsible for damage to District property caused by the negligent or improper acts or omissions of the Contractor, its employees, agents, or subcontractors. The Contractor shall promptly notify the District of any damage and shall repair or reimburse the District for the reasonable cost of repair, as directed by the District.

E. Conditions Beyond Contractor Control. The Contractor shall not be responsible for damage or service delays caused by conditions beyond its reasonable control, including severe weather, fire, vandalism, theft, or acts of third parties, provided the Contractor promptly notifies the District and takes reasonable steps to protect District property and resume services.

F. Pre-Existing Conditions. The Contractor shall inspect the properties at the beginning of the contract term and promptly identify material pre-existing conditions that may affect performance. Conditions not caused by the Contractor remain the District's responsibility unless otherwise agreed in writing.

G. Communication and Emergency Response. The Contractor shall maintain reliable telephone and email communication with the District. The Contractor shall acknowledge emergency notifications from the District within one (1) hour and provide an estimated response time. When immediate onsite response is requested, the Contractor shall mobilize appropriate personnel as promptly as reasonably practicable. Emergency work outside the base scope must be authorized by the District and shall be billed at the approved Time & Materials rates.

H. Personnel and Supervision. The Contractor shall provide adequate staffing and supervision to perform the work safely and on schedule. Employees shall conduct themselves professionally while on District property. The Contractor shall comply with all applicable federal, state, and local employment laws and all legally required provisions applicable to public contracts.

I. Licenses and Permits. The Contractor shall obtain and maintain all licenses, certifications, and permits required for its business and for the services performed under this contract, including commercial pesticide applicator licensing where applicable. District-specific permits or approvals requested solely for District operations will be obtained by the District unless otherwise agreed.

J. Weather and Service Adjustments. Service frequencies assume reasonably favorable weather and site conditions. The Contractor shall adjust schedules when weather or site conditions make work unsafe or impractical and shall communicate material delays to the District. Missed recurring services shall be rescheduled when reasonably possible. If a service cannot be performed because of prolonged restrictions or conditions and is not later performed, the District may request an appropriate service credit.

K. Order of Precedence. If a conflict exists among the RFP, this Exhibit, an addendum, the Contractor's accepted proposal, and the executed agreement, the executed agreement and formal addenda shall control, followed by the RFP and this Exhibit. Contractor proposal terms shall not supersede District requirements unless expressly accepted in writing.

II. TECHNICAL SPECIFICATIONS

A. Turf Care

1. Mowing

- All irrigated turf areas shall be mowed approximately weekly during the growing season, or at a frequency necessary to maintain a neat, healthy, and well-groomed appearance. Mowing height shall be appropriate to turf type and seasonal conditions and is subject to District approval.
- Excessive or visible clippings shall be collected or dispersed so that clumps do not remain on turf. Grass catchers are not required unless needed to achieve this standard.
- The Contractor may temporarily defer mowing in areas that are unsafe or impractical to mow, including saturated areas, active construction zones, or areas occupied by large groups. Deferred areas shall be completed as soon as conditions reasonably allow.
- After mowing, clippings and debris shall be removed or blown from sidewalks, trails, drives, patios, pool decks, curbs, and other hard surfaces.

2. Trimming

- Turf inaccessible to mowing equipment shall be string-trimmed or otherwise maintained as needed to provide a neat appearance and a reasonably uniform height with adjacent turf.
- Herbicides or growth regulators may be used around fences, trees, and other obstacles when appropriate, provided products are approved for the intended use and applied in accordance with label requirements and applicable law. Care shall be taken to prevent damage to desirable vegetation and District property.
- Clippings and debris generated by trimming shall be removed from hard surfaces.

3. Edging

- Concrete walks, pool decks, and similar hardscape adjoining turf shall be edged two (2) times per month during the growing season, or as needed to maintain a neat appearance.
- A steel-blade edger or other appropriate equipment shall be used where practical. The Contractor shall avoid damage to irregular asphalt, flagstone, brick, wood, and other surfaces not suited to mechanical edging.
- Concrete drainage pans and spillways are excluded unless specifically included in the accepted service schedule.
- Excessive edging debris shall be collected and removed.
- Curb edging not identified in the base scope shall be treated as an Extra Service and must be authorized by the District before performance.

4. Aeration

- General turf areas shall be core aerated two (2) times per growing season.
- Athletic fields at Piney Creek Hollow Park, Spring Creek Park, Pioneer Park, Peakview North Park, Tallgrass Park, and Village Park shall receive four (4) aerations annually. Two (2) aerations are included in the base contract; up to two (2) additional aerations may be requested by the District and billed as authorized Extra Services.

5. Area Policing and Debris Removal

- Landscape areas shall be policed for loose trash and debris in conjunction with routine maintenance.
- Priority facilities designated by the District, including the Trails Recreation Center and other designated high-use sites, shall be policed daily.
- All other contracted locations shall be policed at least two (2) times per week during fall, winter, and spring and at least four (4) times per week during summer.
- Routine policing includes hand-pickable litter in turf, beds, trailside areas, and specified native areas. Large-scale dumping, vandalism cleanup, improperly contained dumpster debris, and extraordinary storm debris are Extra Services unless otherwise directed by the District.

- Removal of pet waste is not included unless specifically identified in the base scope.

6. Turf Weed Control

- The Contractor shall provide broadleaf weed control as necessary during the growing season to maintain turf areas in a substantially weed-controlled condition.
- A crabgrass pre-emergent shall be applied in the spring as part of the turf weed control program where agronomically appropriate.
- All pesticide and herbicide applications shall be performed in accordance with product labels, applicable laws and regulations, and accepted industry practices. Applications shall be performed by properly licensed personnel or subcontractors when required by law.
- Additional specialty treatments not included in the base scope shall require District authorization and shall be billed as Extra Services.

7. Turf Fertilization

- All irrigated turf areas shall be fertilized three (3) times per year using a quality, balanced fertilizer appropriate to turf needs and seasonal conditions.
- Fertilizer shall be removed from sidewalks, pool decks, patios, and other hard surfaces following application.
- Specialty soil amendments or treatments outside the base fertilization program shall require District authorization and shall be billed as Extra Services.

8. Spring Cleanup

- One (1) spring cleanup is included in the base contract. Cleanup shall include removal of accumulated trash, leaves, pine needles, and debris from turf and bed areas and seasonal cutback of ornamental grasses and perennials as appropriate. Parking lot sweeping is excluded unless specifically authorized.

9. Fall Cleanup

- One (1) fall cleanup is included in the base contract unless a different frequency is accepted in the proposal. Cleanup shall include removal of accumulated leaves and pine needles and appropriate seasonal cutback of ornamental grasses and perennials. Additional major leaf cleanups may be authorized as Extra Services.

B. Tree, Shrub, and Bed Care

1. Bed Care

- Landscape beds shall be inspected regularly and maintained in a neat condition. The Contractor shall notify the District when mulch replenishment or other material replacement is recommended. Added mulch is an Extra Service unless specifically included in the base bid.
- Bed areas shall be maintained substantially free of weeds through hand weeding and/or properly applied herbicide. Particular attention shall be given to grasses, bindweed, and other invasive weeds growing within shrubs and groundcovers.

2. Tree and Shrub Care

- Trees and shrubs up to fifteen (15) feet in height shall be pruned two (2) times per year unless otherwise directed by the District, generally once in early spring and once in mid-summer.
- Pruning shall follow accepted horticultural and arboricultural practices and shall promote plant health, sound structure, clearance, and the natural growth habit of the plant. Boxing, balling, shearing, or other unnatural shaping of trees and shrubs is prohibited unless specifically directed by the District for a particular plant type.
- Damage to plant material caused by improper pruning or shearing practices shall be corrected at the Contractor’s expense, including replacement where reasonably necessary.
- Smooth-barked trees three (3) inches caliper or less shall be wrapped in the fall and unwrapped in the spring when appropriate for sun-scald protection. This service is included in the base contract.
- Plant material over fifteen (15) feet in height and insect or disease treatments are excluded from the base scope unless otherwise identified and may be authorized as Extra Services.

3. Disc Golf Course (Tallgrass Park)

- The mulch beds surrounding the disc golf baskets at Tallgrass Park shall be maintained as part of the base contract. Beds shall be kept substantially free of weeds through hand weeding and/or properly applied herbicide, consistent with the bed care standards in Section II.B.1.
- Turf and native vegetation adjacent to the basket mulch beds, basket poles, and tee pads shall be string-trimmed or edged as needed to maintain a neat appearance and unobstructed play areas.
- In conjunction with routine maintenance visits, displaced mulch shall be raked back into the beds and leveled, and litter and debris shall be removed from the beds. Added mulch is an Extra Service unless specifically included in the base bid.
- The Contractor shall mow a path approximately six (6) feet wide through each disc golf fairway, from tee pad to basket, along the alignment designated by the District. The fairway mow path shall be maintained to the height and frequency standards for native mowing in Section II.E.1.

C. Irrigation Control and Maintenance

1. Activation

- The Contractor shall coordinate seasonal irrigation activation with the District. Activation will generally occur in spring when weather conditions reasonably allow.
- At activation, the Contractor shall inspect systems and identify repairs necessary to place the system in operating condition. Repairs outside routine adjustments are not included in the base contract and shall be billed at approved Time & Materials rates after District authorization, except emergency measures necessary to prevent immediate damage.

2. Regular Maintenance

- During the irrigation season, the Contractor shall inspect irrigation systems at sufficient frequency to identify broken heads, leaks, improper coverage, controller issues, and other operational deficiencies and shall promptly report identified deficiencies to the District.
- Routine spray-head arc adjustments, controller programming, seasonal run-time adjustments, and similar minor operational adjustments are included in the base contract.
- Repairs requiring parts, excavation, replacement of components, or significant labor shall be billed on a Time & Materials basis after District authorization, except emergency repairs necessary to prevent immediate property damage or significant water loss.
- Controller schedules shall be adjusted to account for seasonal conditions, District events, water conservation needs, and applicable watering restrictions.

3. Winterization

- One (1) complete irrigation winterization is included in the base contract and shall be completed prior to October 31, or earlier when weather conditions warrant.
- Winterization shall include the use of compressed air or another industry-accepted method appropriate to the system.
- The Contractor shall not be responsible for freeze damage caused by extraordinary weather occurring before a reasonably scheduled winterization date, provided the Contractor has acted prudently and communicated weather-related risk to the District.

4. Irrigation System Responsibility

- The District will notify the Contractor of other parties known to have access to irrigation controllers. The Contractor shall promptly report evidence of unauthorized controller changes or tampering.
- The Contractor is responsible for damage caused by its negligent operation or maintenance of the irrigation system. The Contractor is not responsible for pre-existing defects, concealed failures, vandalism, or failures outside its reasonable control unless the Contractor knew or reasonably should have known of the condition and failed to report it.

- Repairs or upgrades to deficient or obsolete irrigation infrastructure are Extra Services unless specifically included in the base scope.

D. Miscellaneous Services

1. Site Inspections and Reporting

- The Contractor shall regularly inspect maintained landscape areas, plant material, trails, playground-adjacent areas, and exterior site conditions encountered during routine work. Safety hazards, vandalism, storm damage, irrigation failures, and other conditions of concern shall be reported to the Parks Manager as soon as reasonably practicable.
- When requested, the Contractor shall provide a written estimate for corrective work outside the base scope. No non-emergency Extra Service shall be performed without District authorization.

2. Trash Receptacle Monitoring

- Trash receptacles within the contracted landscape scope shall be monitored regularly and emptied as needed. Receptacles at priority facilities designated by the District shall be checked daily.

3. Planning and Coordination

- The Contractor shall participate in routine check-ins with the Parks Manager and shall assist, as reasonably requested, with seasonal planning, maintenance scheduling, budget projections, and identification of anticipated landscape needs.
- The Contractor shall coordinate maintenance activities with the District in advance of special events and large sporting events so that appropriate service levels are maintained and scheduled work does not unreasonably interfere with District operations.
- For authorized Extra Services, the Contractor shall provide before-and-after photographic documentation when requested by the District.

4. Restroom Cleaning

- The Contractor shall clean the public restrooms at Piney Creek Hollow Park, Spring Creek Park, Village Park, and Tallgrass Park (two (2) vault toilets) one (1) time per week while the restrooms are open to the public, as determined by the District.
- Cleaning shall include, as applicable to each facility, cleaning and disinfecting toilets, urinals, sinks, fixtures, partitions, and frequently touched surfaces; sweeping and mopping floors; emptying restroom trash receptacles and replacing liners; and removing litter from restroom interiors and entrances.
- The Contractor shall furnish and restock toilet paper, hand soap, paper towels, and trash liners as part of the base contract.
- Vandalism, graffiti, plumbing failures, damaged fixtures, and vault toilets nearing capacity shall be reported to the District as soon as reasonably practicable. Vault toilet pumping and fixture repairs are excluded from the base contract. Additional cleanings requested by the District, such as for special events, may be authorized as Extra Services.

E. Native Areas (Trail and Perimeter Areas)

1. Native Mowing

- Native areas shall be mowed along both sides of trails and around designated perimeters, including fences and roadway edges. Spring Creek Park and Piney Creek Hollow Park native areas shall be mowed wall-to-wall one (1) time per season for weed and vegetation management.
- Trail and perimeter mowing shall generally be approximately six (6) feet wide, adjusted as necessary for terrain and safe equipment access. Mowed vegetation shall be maintained at approximately four (4) to six (6) inches immediately after mowing and shall not be allowed to exceed approximately twelve (12) inches in the designated mow strip between scheduled services.
- Clippings may remain in place unless they create an unsafe or unsightly condition. Vegetation adjacent to paved trails, walks, and curbs shall be trimmed or edged as needed to maintain a neat appearance.

- Native mowing described above shall be performed six (6) times per season unless otherwise directed by the District.
- Undisturbed native areas, wetland mitigation sites, creek banks, wetlands, and other areas designated by the District as no-mow shall not be mowed.

2. Litter Control

- Routine litter control shall include hand-pickable litter within mowed trail edges and designated native-area perimeters. Large items, illegal dumping, graffiti-related debris, and extraordinary cleanup shall be reported to the District and may be handled as authorized Extra Services.

3. Tree Inspection and Supplemental Watering

- The Contractor shall conduct monthly visual inspections of representative trees in native areas throughout the year, with particular attention to trees planted within the previous two (2) years. Conditions requiring supplemental watering or corrective work shall be reported to the District.
- Supplemental watering is not included in the base contract unless specifically identified. When authorized, watering shall be sufficient to wet the active root zone to an appropriate depth for establishment and plant health.

4. Pruning

- Routine pruning is not included for native areas. The Contractor shall report broken, hanging, dead, or damaged limbs that may present a safety concern. Authorized pruning in native areas shall be billed as an Extra Service.

5. Weed Control

- Weed control shall include spot treatment of vegetation in trail, curb, and sidewalk cracks using an approved non-selective herbicide or equivalent method appropriate to the location.
- Spot treatment and mowing of perennial noxious weeds in native areas may be requested as conditions warrant and shall be billed as an authorized Extra Service unless specifically included in the accepted proposal.
- Herbicide applications shall be performed by properly licensed personnel using products and concentrations appropriate to the target species and in accordance with label requirements and applicable law.

III. TIME AND MATERIALS RATES

A. Standard Time & Materials Rates. Bidders shall provide a complete schedule of Time & Materials rates for Extra Services, emergency services, and additional work not included in the base contract price. Rates shall include:

- Labor rates by classification (for example, crew member, crew leader, and supervisor).
- Equipment rates by type.
- Material costs and the bidder's proposed material markup percentage.

B. Snow Removal Time & Materials Rates. Bidders shall provide a separate complete schedule of Time & Materials rates for snow removal services. Snow removal is not included in the base bid. Rates shall include:

- Labor rates by crew size and classification.
- Equipment rates by type.
- Material costs for salt, sand, de-icing products, and similar materials, including the bidder's proposed material markup percentage.
- Mobilization costs, if any.

C. Snow Removal Trigger and Priority. Snow removal services may be authorized by the District when snow accumulation reaches two inches (2") or greater. Unless otherwise directed by the District based on actual conditions, service priority shall be:

1. West Tollgate Trail Stretch
2. No Name Trail / Stanford Hills
3. Copperleaf / Mesa Open Space Trails
4. Willow Trace Park
5. Street Sidewalk along Spring Creek Park (bus stop and school crosswalk)
