Solicitation 003-27 - 003-27 RFP - Mowing Services - Groups 2, 5, 7 & 8
Buying Organization Douglas County School District RE-1

No	Question/Answer	Question Date
Q1	**Question: Eligibility to Propose on Limited Scope** Does DCSD permit a respondent to submit a proposal for only a portion of the solicited scope, such as an individual campus, selected group, or specific ancillary services, rather than all listed sites and services? If so, would the three K-12 reference requirement in Section 8.4 remain mandatory for a respondent proposing on a limited scope? **Answer:** Thank you for your interest in the DCSD mow RFP. At this time, we are doing this as one proposal.	09/28/2026
Q2	**Question: Native SF vs Turf SF** In the RFP you indicate SF for Turf only but no SF for native identified. There seems to be a lot of native for this project. Are we to assume "Turf" is "Native" and if so, does that mean that all sport fields will not be considered in scope? Thanks **Answer:** Thank you for your interest in the DCSD mow RFP. Native maps were provided in the RFP of the current areas to mow. Native mowing changes from year to year, some areas are a 6 foot beauty band and some are a full mow, so we let the contractor determine their cost on native mowing.	10/05/2026
Q3	**Question: Price sheet** I didn't see a price sheet to fill out. Will we be given one or utilize our own? **Answer:** A price sheet to fill out will be added as an addendum to the RFP.	10/05/2026
Q4	**Question: Permitted Service Days and Hours** Are Contractors restricted to performing all or any portion of the required services during weekends, evenings, or days when school is not in session? Please confirm whether routine mowing, trimming, edging, and other maintenance activities may be performed during normal weekday school hours, subject to coordination with individual school administrators. **Answer:** Thank you for your interest in the DCSD mow RFP. Please refer to the Miscellaneous portion of the RFP. School fields are used heavily throughout the mow season, including weekends. It is preferred to have ALL services performed each day by 2:30PM during the week (especially playing fields). For the school sports, once school is out for the day services can be completed around buildings. All schools are made aware of your mowing schedule and are instructed to work with contractors to perform your services on the assigned day.	10/08/2026
Q5	**Question: Definition of "No Contact" Days** Section 4.0 requires fertilization and broadleaf herbicide applications to occur on "no contact" days. Please define "no contact" days and clarify whether these are limited to weekends, holidays, and school breaks or whether other designated application windows will be permitted. **Answer:** Thank you for your interest in the DCSD mow RFP. No contact days are when students are not in school, like, Fall/Spring breaks, professional developing days for teachers only. Weekends and holidays are considered no contact days as well, as long it does not interfere with sports programs on the weekends. Pending on the application other services, may be allowed on normal school days	10/08/2026

Q6	**Question: Group-Specific Bidding and Award Structure** The RPF permits multiple awards and acceptance of portions of a proposal. Does DCSD intend to award Groups 2, 5, 7, and 8 individually or as one combined contract? May Respondents submit proposals for selected groups rather than all four, and will each group be evaluated independently? **Answer:** Thank you for your interest in the DCSD mow RFP. At this time we prefer to do this as one contract for All groups. The groups are set up for tracking and billing purposes. You are welcome to submit individual proposals and pending results of the RFP we may entertain.	10/08/2026
Q7	**Question: Native Mowing Quantities** The RFP requires monthly native mowing, including six-foot beauty bands and full native mowing at designated locations. Please confirm whether the listed turf square footage includes native grass areas or represents maintained turf only. Can DCSD provide estimated native mowing acreage by campus, distinguishing full native mowing from six-foot beauty bands, to establish a consistent pricing basis? **Answer:** Thank you for your interest in the DCSD mow RFP. The turf square footage is for blue grass Only. We do have total acreage native for each site we can provide if needed, but, we prefer to go off the maps, as some native on these sites are not serviced, so that would not be an actual number to price out along with the 6 foot bands.	10/08/2026
Q8	**Question: Grass Clipping Removal and Disposal** The RFP requires all grass clippings to be removed from sites but also references removal of excessive clippings at the Grounds Manager's discretion. Please clarify whether all clippings must be collected, hauled, and disposed of off-site after every mowing occurrence or whether mulching/dispersing clippings into maintained turf is permitted when no visible accumulation remains. **Answer:** Thank you for your interest in the DCSD mow RFP. Yes, mulching clippings with multiple passes and or blowing to disperse in turf, so there is no visible accumulation is okay. If clippings get excessive due to weather and or fertilization spikes, clippings will need to be removed.	10/08/2026
Q9	**Question: Pricing Schedule and Required Unit Rates** Section 8.6 requires pricing in the format specified by the RFP, while Section 13.2 evaluates total cost and unit pricing for additional services. Will DCSD provide a standardized pricing schedule, or should Respondents develop their own? Please identify the required pricing breakdown, including whether pricing must be provided by individual campus, group, service category, and additional mowing occurrence. **Answer:** Thank you for your interest in the DCSD mow RFP. The additional services will be separate pricing from 8.6 services and up to each respondents to provide pricing in their own format. Pricing needs to be broken down into each individual site and its services and a total for each group. Services are based on a 27 week contract, pending on weather and growth additional services may be needed, as an example this year it is turning into a 29 week service.	10/08/2026
Q10	**Question: K–12 Reference Requirements** The RFP requires three references from the K–12 education market within the current or preceding two calendar years. Will DCSD consider comparable references from higher education institutions, municipalities, public agencies, or similarly sized multi-site institutional landscape maintenance contracts in lieu of exclusively K–12 references? **Answer:** Thank you for your interest in the DCSD mow RFP. Yes, all references are welcome.	10/08/2026

No	Question/Answer	Question Date
Q11	**Question: Additional Mows** Should the additional mows be price per individual school and separate from the total cost? **Answer:** Thank you for your interest in the DCSD mow RFP. Yes the additional mows should be priced per individual school and separate from the total cost.	10/08/2026
Q12	**Question: Aeration Sq Ft** Just to clarify, will the different ball fields need to have an aeration done or just the turf around the school buildings? **Answer:** Thank you for your interest in the DCSD mow RFP. Just the yards only. NO fields. Yards will include around the building and some sites have yards around the ball fields.	10/08/2026
Q13	**Question: Seasonal Cleanups and Shrub Pruning** Could you please confirm whether spring and fall cleanups, as well as shrub pruning, are required to be included in the maintenance schedule? **Answer:** Thank you for your interest in the DCSD mow RFP. NO seasonal clean up's or shrub pruning are part of this RFP.	10/08/2026
