# Water Treatment Chemicals
# Addendum No. 01

**The following changes have been made and are now incorporated as part of the main bid document:**

Below the are the Town's responses to questions received during the question-and-answer period.

| QUESTION RECEIVED | TOWN'S RESPONSE |
|---|---|
| Can you provide historical annual purchases by chemical, facility, and delivery format, along with current pricing or annual spending? | See Attachment C |
| What capacities should we assume for tanker loads, totes, and drums, and how many bags are included per pallet? | See Attachment C |
| Which months are considered summer and winter? | Summer: April -September<br>Winter: October-March |
| At Meadows, are the weekly hypochlorite totes needed in addition to the tanker deliveries? | Yes |
| What concentration, grade, and silica-to-soda ratio are required for sodium silicate? | Concentration: 28-29<br>Ratio: 3.15-3.27 |
| Can you clarify the "NSF 60 or ANSI 61" requirement and which product certifications and documents must accompany the bid? | See Attachment C |
| Are there specific hypochlorite acceptance limits for delivered strength, product age, chlorate, or other impurities? | See Attachment C |
| Can you provide each facility's unloading requirements, including tank capacities, connection sizes, hose lengths, delivery hours, and liftgate needs? | See Attachment C |
| Does the 35-foot truck limit refer to overall vehicle length or cargo-box length? | Overall vehicle length is 35 feet. |

| | |
|---|---|
| Do the 24- and 48-hour delivery requirements include weekends and holidays, and are emergency deliveries permitted outside the listed delivery days? | 24 Hour Emergencies requests include weekend and holiday deliveries. |
| How should delivery charges apply to split loads serving multiple facilities, and how will those charges be evaluated? | Quote split load fees and multiple location delivery fees, which will be included in the overall bid package comparison. |
| Can you confirm the correct addresses for Plum Creek and Miller? The main bid document and maps show different addresses. | Refer to IFB Document, not map, for the correct addresses. |
| For renewal pricing, what is the adjustment-request deadline, applicable index, and comparison period? | Renewal Pricing due: October 1 Index and comparison rates are not applicable. |
| How does the sample agreement's one-year warranty apply to chemical products, particularly hypochlorite? | Disregard the standard acquisition verbiage on the sample. Staff will retain the right to refuse delivery based on product quality. |
| Please confirm the estimated annual quantity for:<br>• Aluminum Sulfate - 48%<br>• Caustic Soda/Sodium Hydroxide - 50%<br>• Hydrogen Peroxide - 20%<br>• Liquid Ammonium Sulfate 40%<br>• Sodium Bisulfite - 38-40%<br>• Sodium Hypochlorite - 12.5%<br><br>Please confirm the quantity per truckload delivery of:<br>• Caustic Soda/Sodium Hydroxide - 50%<br>• Hydrogen Peroxide - 20%<br>• Liquid Ammonium Sulfate 40%<br>• Sodium Hypochlorite - 12.5% | See Attachment C |
| 12.5% Sodium Hypochlorite:<br>• Current Tanker gallon price and gallon volume per order, example 4,500 gallons<br>• Current Tote gallon price and are returnable totes or caged one-way totes delivered per site, or are current totes filled onsite.<br>• Current Drum Price.<br><br>50% Sodium Hydroxide: | See Attachment C |

| | |
|---|---|
| • Current Tanker gallon price, and gallon/lbs. volume per order, example ~3,600 gallons/45,000 lbs.<br>• For price adjustments will Chlorine & Sodium Hydroxide producer increase letters be evaluated. | |
| What is the current price of the Liquid Ammonium Sulfate (tanker deliveries)? | See Attachment C |
| Who is the current supplier of the Liquid Ammonium Sulfate (tanker deliveries)? | Brenntag Pacific, LLC<br>Treatment Technology |
| What is the estimated tanker load size for the Liquid Ammonium Sulfate? | 4,000 gal. |
| Will loads be split for the liq ammonium sulfate tankers? | Yes |
| Do you need to bid the totes and drums in order to bid the tanker loads for the Liquid Ammonium sulfate? | Yes |
| What is the estimated volume for the tanker loads of Liquid Ammonium Sulfate? | Yes |
| Can you make an exception to the delivery time (24-48 hr)? | No |

Proposer shall initial here _____ and attach to proposal. Failure to do so may be cause to consider your proposal non-responsive and cause for rejection.
