        IV. A provision that requires the contractor to comply with any reasonable request by the department made in the course of an investigation that the

department is undertaking pursuant to the authority established in subsection (5) of this section.

The department may conduct on-site inspections where a public contract for services is being performed within the state of Colorado, request and review documentation that proves the citizenship of any person performing work on a public contract for services, or take any other reasonable steps that are necessary to determine whether a contractor is complying with the provisions of a public contract for services required pursuant to subsection (2) of this section. A participating contractor shall comply with the provisions of subparagraph (II) of this paragraph (c) and shall consent to department audits conducted in accordance with subparagraph (III) of this paragraph (c). Failure to meet either of these obligations shall constitute a violation of the department program. The executive director shall notify a contracting state agency or political subdivision of such violation.
