Attachment H – Construction Division Cost Breakdown

Respondents shall complete and submit a separate copy of Attachment H for each Project Package for which they submit a proposal. Attachment H shall be submitted in addition to Attachment D – Pricing Proposal and shall provide a breakdown of the proposed Base Proposal amount by applicable CSI construction division and additional project costs.

Respondents shall identify the costs associated with each applicable construction division, including a brief description of the Work included. Divisions that do not apply to the proposed Project Package may be marked "N/A."

Applicable insurance, bonding, overhead, profit, and other project costs shall be identified separately in the Additional Project Costs section and shall not be duplicated within the construction-division breakdown. The total of all costs identified in Attachment H must equal the corresponding Base Proposal amount submitted on Attachment D.

Attachment H is intended to provide supplemental pricing information for the District's evaluation of proposed costs and overall value. It does not replace Attachment D or establish unit prices for additional or changed Work.
