19) General Requirements for Restrooms (5W)

All fixtures shall be washed with a non-damaging neutral cleaner to remove deposits, stains, corrosions, and odorous film. After cleansing all plumbing surfaces, they shall be wiped dry and polished. Soap, paper towel and toilet paper dispensers shall be checked and replenished daily (as needed). Painted surfaces shall be wiped dry after soap cleaning and clear rinsing.

Abrasives shall not be applied to plated hardware or other metals. Counter tops, hardware, and cabinets of water coolers shall be wiped clean with a damp cloth, detergent solution, clear water rinse and wiped dry. Any spillage or overflow onto adjacent walls, floors, or fixtures shall be wiped dry. Contractor shall notify Building maintenance personnel of any inoperative fixture.

20) Toilet Bowls and Commodes (5W)

Toilet bowls and commodes shall be cleaned with a germicidal, sanitizing detergent using a nylon bowl brush. The contractor shall not use extremely strong toilet bowl cleaner(s), acids, or strong alkaline as they may damage the ceramic glaze. Thoroughly wash inside rim of bowl using a scrubber to ensure complex removal of deposits. Wash and sanitize the seat, top, and bottom. Wipe outside of bowl, tank, cover, flushing handle, and flush to rinse.

21) Urinals (5W)

The urinals shall be cleaned with a germicidal, sanitizing detergent. Cleaner shall be placed in the trap and allowed to stand not more than one hour, then shall be flushed. Corrosion and rust shall be removed from the drain holes in the bottom, side, and back of the urinal. A stiff bristled brush shall be used with a mild tri-sodium phosphate cleaning solution. No metal objects shall be thrust into these holes as fracturing or breaking of the finish and/or trap may result. After cleaning, wipe all outside surfaces with a damp cloth. Replace deodorant blocks in each urinal as needed and wash adjacent walls.

22) Sinks (5W)

The lavatories shall be cleaned with a germicidal, sanitizing detergent. Chrome-plated hardware shall be cleaned with a disinfectant not abrasive to the chrome or plastic handles. All kitchen/galley sinks are to be cleaned nightly - stainless steel sinks are to be cleaned and then coated with stainless steel cleaner. All solid surface (Corian) sinks are to be cleaned with a soft-scrub detergent and a non-scratch abrasive sponge.

23) Showers (5W)

Wall and floor areas shall be scrubbed with a germicidal, sanitizing detergent to remove all deposits, stains,

corrosions, odorous films, and mildew.

24) Restroom Floors (5W)
Concrete and tiled restroom floors shall be swept, scrubbed, and wet-mopped using a germicidal, sanitizing detergent. All grout lines must be scrubbed clean. A final rinse with clean water is essential. There shall be no splash marks or residue on fixtures, baseboards, doors, or walls.

25) Mirrors (5W)
Contractor shall clean all mirrors using a good-quality glass cleaner. Adjacent trim work shall be wiped clean with a damp cloth.

26) Interior Walls and Partitions (1W)
Use a general-purpose germicidal, sanitizing liquid cleaner with clean water. Application of cleaning solution shall not cause surface water damage and/or finish damage to painted masonry, painted drywall, wood, or metal partitions. All wall surfaces under soap dispensers and behind trash bins are to be cleaned weekly or as needed.

27) Baseboards/Walls (1M)
The Contractor shall wipe clean baseboards and walls, leaving them free of smudges, fingerprints, and dirt. Natural wood baseboards shall be polished with a high-quality polish that will not discolor or stain the wood.

28) Conference Room, Break Room Tables and Reception Area Tops (5W)
The Contractor shall wipe and sanitize table-tops, damp-wipe seats, and seat backs.

29) As-Required (AR)
Certain tasks will be designated by the contracting officer or representative that shall be accomplished only as the need arises. If these tasks interfere with the required cleaning schedules, the Contractor shall notify the County's representative.

In no way shall these tasks interfere with required cleaning schedules. The Contractor shall be responsible for cleaning any spills, overflows, or any other foreign material deposited in any room and/or building. Any additional costs for as-required tasks will be determined and prorated by the County's representative.
